at the 21st of April we stated some at explicitly the ylews which cause us support the candidacy of the Hox. He into the campaign under the inspiration of S.C. Bernerour of Maine. We slide that no other name was seriously explicitly to be compared to be compared under the inspiration of the Repu Rein blade that no other name was seriously explicitly the baseline that we wanted the compared to the Physical Late. tertained the impression that we were considered print to his Florence ittled to express our preference, and it there is no possible occasion for Mr. Blaine is our intention to express it with due to report to any of the small devides of the artesy to all aspirants, and with a prop-regard for the maintenance of that to him by these organs. The call for udly feeling so essential to pulitical suc- Blaine is essentially the free and untrainstafter nominations have, been made, mailed volce of the people, who, while recon a careful reperusal of that editorial ogalzing the sincerty of his letter, still Impressions of its entire propriety are believe him to be the man of all others to fully confirmed that we republish it lead the Republicans to victory and think hatim in this issue.

seems, however, that the Portland column lestend of following his person s, which had been actively engaged several months in "booming" a candito in its own city, has become passessed the idea that Thir Willo' is not entitled. an opinion or preference as to the earliest for covernor, or at any rate that should be instructed by that paper in gard to the manner of expressing of inference; and i has accordingly devoted insiderable of its space of late to the so of showing that it does not approve our preference or of the reasons we eighten therefor.

I camper frankly idmit that in expression of the state our Portland contemporary, loss views in regard to our action do now seem invested with any particular properties. We had not deemed to contemporary the state our perference of the fraction of the most grantletion in order to make the canvoss for the most grantly in almost in which the canvoss for the most grantly in an extinct of the three-gentlemen prominently annealing and in this connection, viz. Governor Sebastian S. Marble, Santo Treasurer Edwin. C. Burleigh, and ex-Attorney-General licenty B. Cleaves. There is also cause for constitution in the fact that all of these gentlemen are adopt qualified and that children when the capture of the capabilities at either the control of the most grantly in the capture of the Republikan simulation in Malne, is the capability ampeable manner in which the captures of the Republikan simulation in Malne, is the Republic and the capture of the Republikan simulation in Malne, is the Republic and the captures of the Republikan simulation in Malne, is the Republic and the captures of the Republikan simulation in Malne, is the Republic and the Republic and the captures of the Republikan simulation in Malne, is the Republic and the Republic and the captures of the Republikan simulation in Malne, is the Republic and the Republic and the captures of the Republikan simulation in Malne, is the Republic and the captures of the Republikan simulation in Malne, is the Republic and the Republic and the Covernor Sebastics our pointered by the transfer of the three captures of the Republic and the captures of the Republic and the captures of the Republikan simulation in Malne, is the Republic and the Republic and an opinion or preference as to the can-

I effere we took any part id consumities at the most expedient and communities at the most expendent at the manner in which it his partition at the manner in which it his partition at it is incompatible with the spirition at the incompatible with the spirition at the harmony and success of the party as The White AND Cot may be leaves it mostle to prefer the commatten of a particular condition or declaring hostility to hera, the frees select heave only and and controlled which because we have only and and controlled world and noting substantial to the condition that we are combined to the most of the attention that we are combined and controlled world and noting substantial to the condition world and noting substantial to the condition world and controlled the agreetive. hera, the frees selves the opportunity to declare that because we have only land and courteous words for Governor Marble and Mr) Cleaves, therefore we have no right to favor the combination of Mr. Burleigh. And in following this circus bent that paper, while advocating the selection of alumidilate residingful its cap city, actually rebukes us for venturing to voice the preference of our own section. But the most unworthy phraped this effort of the most unworthy phraped this effort of the Republican party, is its clumsy effort to distort our respectful and friendly reference to Governor Marble into sometiling offensive. That effort will not be successful. Our words in relation to the Governor or the perfectly plafu, manifestly courselves and during reputation that we are confident in will address and dapable and will able to a will all the selection. offensive. That effort will not be accessful. Our words in relation to the Governor or are perfectly plain, manifestly courteous, and cannot be tortured into any appearance of unfrieddiness or discrepent. We did not say that Governor Marble is "too o'd to be renominated." We said that at his time of life the hours of boing Chief Magistrate of his State would naturally be the limits of bis political desires, and this time matter of one or two terms would be of small consequence to him, after having filled the position with ability and credit, if there were not reasons that seen to us to render it best, all things considered, that Mr. Burleigh should be nominated this year, we should have no objection to renominating Governor Marble, and our support of Mr. Burleigh is based on no lack of regard for the Governor, as he well knows.

If the opinions of that paper were important it might be interesting to know oh what grounds the Press has opposed and and is still opposing the renomination of Governor Marble to be defeated by Mr. Cleaves, but that it would be a great wrong to limit if Mr. Burleigh should be nominated. That sort of thing is too childing to him if Mr. Burleigh should be nominated to Governor Marble to be defeated by Mr. Cleaves, but that it would be a great wrong to him if Mr. Burleigh should be nominated. That sort of thing is too childing to should be a great wrong to him if Mr. Burleigh should be nominated. That sort of thing is too childing to him if Mr. Burleigh should be nominated.
